

2020 NMR Training Course (I)

Using MestReNova for NMR Data Analysis

High-Field NMR Center & GRC NMR LAB Academia Sinica

Mnova NMR 是功能強大的 NMR 圖譜分析軟體, 為提供 NMR 使用者更便利的分析工具, 日前添購 Mnova NMR 使用權, 希望協助使用者的研究工作事半功倍!! 歡迎大家踴躍參與此次使用說明簡介, 善用實驗室資源!!

The Mnova NMR is ideal both for the non-expert NMR user looking for an easy to learn software which delivers quick, high quality results, and for the expert user looking for extensive advanced functionality. It can easily and automatically analyze spectra (peak picking, integration, multiplet analysis), assign 1D and 2D spectra, make annotations and reports in different Journal formats, paste molecular structures and much more.

Date: Jan. 06, 2020

Places: 1F Auditorium, GRC, Academia Sinica

Instructor: Rezwave Technology Inc. 磊葳科技

Language: Chinese 中文解說為主

Time: 14:00-16:00

- Introductory Overview
- Tutorial / Practical Hands-On
- Q&A

Registration Webpage: <https://www.nmr.sinica.edu.tw/Course/TC2020/>

Registration Deadline: Jan. 05, 2020

Please download/install the software in advance! Thank you very much!

MestReNova 14.1.1 <https://mestrelab.com/download/mnova/>

-請於 [mestrelab](https://mestrelab.com/) 網頁申請 45 天免費試用所有功能

-Apply 45-days Free Trail from MestReNova webpage
